Settlement Terms

NOW, THEREFORE, for and in consideration of the mutual covenants set forth in this Agreement and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. Sewer Service

- 1.1 **Withdrawal of Wastewater Permit Application.** BP will withdraw with prejudice its pending application for TPDES Permit No. WQ0014713-001.
- 1.2 **Prohibition on Future Wastewater Treatment Plant.** BP agrees that no wastewater treatment plant will be constructed within the boundaries of the Development or to serve the Development.
- 1.3 **Withdrawal of Sewer CCN Application.** BP agrees to withdraw with prejudice its application for a sewer CCN to serve the Development.
- 1.4 **Location of Septic Tanks.** BP agrees that septic tanks in the Development may not be located within the 100-year floodplain, as designated in the FEMA floodplain map at the time of the installation of the septic tank involved.

2. Density/Land Use

- 2.1 **Single Family Residences.** BP agrees to limit use of the Development to single-family residences, with the exception of a neighborhood amenity center with appurtenances (which may include a swimming pool, tennis courts, exercise/play equipment, patios, and pavilions).
- 2.2 **550 Lots.** BP agrees to limit the density of the Development to a maximum of 550 single-family residential units to be located within the physical boundaries of the Development and in accordance with the Proposed Density/Lot Layout attached hereto as Exhibit "B". Given the flexibility necessary in design and obtaining approvals for the Development, the lot lines and street right-of-ways depicted by Exhibit "B" are approximate and subject to revision.

- 2.3 **Greenspace.** The Development will include no less than 700 acres of greenspace. The generally anticipated location and layout of this greenspace is depicted in Exhibit "B". The location and layout of the Greenspace Easement as depicted by Exhibit "B" may be adjusted from time to time in the future by BP with the total acres being at least 700. No structure shall be built on this greenspace except for one amenity center with appurtenances, small park-related structures (such as a rest station, patio, pavilion, observation deck, or exercise/play equipment), hydrology-related structures, and hike/bike trails. Except for the aforementioned "structures" and that part of the greenspace consisting of public entries to the Development, ponds, parks, and trail systems, the natural ecology and native landscape shall be preserved, but managed reasonably. Greenspace areas will be set aside by the creation of easements on lots sold within the Development, except for the following areas:
- (i) Greenspace immediately associated with one amenity center with appurtenances;
 - (ii) Landscaped public entries to the Development; and
 - (iii) Lots owned by BP, or a future homeowners association, that are no wider than 50 feet in width and which are used for the purpose of a hike/bike trail system.
- 2.4 **Average Minimum Lot Size.** BP agrees to limit the average minimum lot size in the Development to no less than 3.0 acres based on the total acreage of the Development. The average lot size shall be calculated in a manner consistent with the Medina County Subdivision Regulations in effect as of the effective date of this Agreement.
- 2.5 **Absolute Minimum Lot Size.** BP agrees to limit the absolute minimum lot size in the Development to no less than 1.1 acres.
- 2.6 **Impervious Cover.** BP agrees to limit the developed impervious cover of the Development to no more than 15%.
- 2.7 **Perimeter Buffer.** In order to screen homes built on lots immediately adjacent to S.H. 16 and/or P.R. 37 from being visible offsite, BP agrees to dedicate a greenspace buffer of at least 40 feet around the perimeter of the Development, with exceptions for utility and landscaped public entries into the Development. BP may take reasonable steps to maintain the greenspace buffer, which shall include tree pruning and managing the existing understory.
- 2.8 **Submittal of Agreement.** BP agrees that (i) it will submit a copy of this Agreement to Medina County at the same time that it submits its application for plat approval of that portion of the Development located in Medina County, and (ii) it

will submit a copy of this Agreement to Bandera County at the same time that it submits its application for plat approval of that portion of the Development located in Bandera County.

2.9 Architectural Requirements. BP agrees to utilize the following architectural requirements (enforceable through deed restrictions) for all residences and structures in the Development:

- (i) All homes must be at least 2,200 square feet, exclusive of any garage space;
- (ii) All homes and structures may not have more than two (2) stories, with an exception for walk-out basements and garages;
- (iii) The exterior of all homes and structures must be at least 75% masonry;
- (iv) High quality fencing construction materials; and
- (v) External lighting will utilize dark sky lighting fixtures.

2.10 Withdrawal of Protest. Provided that BP is in compliance with Paragraphs 1.1 – 1.3 of this Agreement, Protestants agree that they will withdraw their protest and/or not oppose any application or request by BP for approval of a Master Development Plan, Preliminary Sketch Plan, Preliminary Plat, Final Plat, Stormwater Management Plan, Traffic Impact Analysis, and/or any other required entitlement relating to density/land use for the Development that complies with the limitations set forth in Paragraphs 2.1 – 2.8 of this Agreement..

3. Water Sources

3.1 Limitations on Groundwater Service. Within 30 days of the effective date of this Agreement, BP will amend Application No. M-68-18-8-000007 that is now pending before the MCGCD to request a maximum amount of groundwater to be withdrawn pursuant to the permit to be 425 acre-feet per year. The following limitations will also apply to the use of groundwater at the Development.

(a) BP will not seek any permit or combination of permits to withdraw more than 425 acre-feet per year of groundwater for the property encompassed by the Development;

(b) Except for a quantity reasonably necessary for the operation of an amenity center and the irrigation of any common areas, BP will not seek an operating permit from the Medina County Groundwater Conservation District for any use other than domestic use or non-commercial agricultural use;

(c) No groundwater well in the Development shall be used or authorized for any use other than domestic use or non-commercial agricultural use;

(d) At no time may the total amount of groundwater authorized to be withdrawn by wells located within the boundaries of the Development exceed 425 acre-feet per year. BP shall seek to amend its operating permit as necessary to ensure that this limit is not exceeded. In determining this total, amounts authorized by permit and amounts authorized by any exemptions shall be included. For purposes of making this determination each exempt well shall be deemed to have been authorized an allotment of 0.75 acre-feet of groundwater per year.

(e) Any groundwater well used to serve multiple households shall include a separate meter to determine the water used by each household; and

(f) No groundwater well will be drilled in any of the protected zones as described in Exhibit "C" attached hereto and incorporated herein by reference. Each of the following landowners shall be granted a restrictive covenant to enforce this limitation in that landowner's respective protected zone as depicted in Exhibit "C":

- (i) Kenneth & Margaret Cox;
- (ii) Betty Lou Jonas;
- (iii) Larry & Lisa Cross; and
- (iv) Ed Brummett.

3.2 Limitations Applicable if Water Service is Obtained from City/SAWS. If BP is able to obtain a binding commitment from the City/SAWS to provide water service to the Development and a public water system is constructed and/or extended that includes the Development, then BP agrees that:

(a) If an operating permit for Application No. M-68-18-8-000007 has not yet been issued by the MCGCD, BP will amend such application to request a maximum amount of groundwater to be withdrawn pursuant to a permit to be 25 acre/feet per year, and such groundwater shall be used solely for the irrigation of common areas in the Development;

(b) If BP has already received an operating permit for the withdrawal of groundwater to serve the Development, then BP shall submit a request to the MCGCD to amend such operating permit to authorize a maximum amount of groundwater withdrawal to be 25 acre/feet per year, and such groundwater shall be used solely for the irrigation of common areas in the Development.; and

(c) BP will not sell or transfer water obtained for the Development for any use outside the boundaries of the Development.

- 3.3 **Withdrawal of Groundwater Permit Protest.** SGVA, Eddoran Partnership, Ltd., Gallagher Ranch Partners, Ltd., and Gallagher Ranch Cattle Company, Inc. will withdraw their protest of Application No. M-68-18-8-000007 to the MCGCD within 30 days after that application is amended to limit the amount of groundwater authorized under that permit to no more than 425 acre-feet per year. Moreover, Protestants shall not oppose or protest any future request or application by BP to the MCGCD for an amendment of an operating permit, provided that such request or application complies with Paragraphs 3.1 and 3.2 of this Agreement.
- 3.4 **Prohibition on Sale or Transfer of Water.** Without regard to the source of water for the Development, BP shall not sell or transfer water for use outside of the Development. BP shall not sell or transfer groundwater rights to any person or entity for use outside of the Development.
- 3.5 **Agreement Not to Protest City/SAWS Water Service.** Provided that BP is in substantial compliance with the terms of this Agreement, SGVA will not contest or oppose an extension of water service by the City/SAWS that includes the Development.

4. **Restrictive Covenants**

- 4.1 **Restrictions Enforceable by Restrictive Covenants.** The following restrictions shall be placed on the Development, and recorded in the official public records of Medina County and Bandera County, with enforcement rights granted to the owners of property within the Development (or a future homeowners' association for the Development), SGVA, and the owners of the properties adjacent to the Development which are currently owned by Eddoran Partnership, Ltd and Gallagher Ranch Partners, Ltd.:

- (i) The prohibition on the construction of a wastewater treatment plant in the Development, as set forth in Paragraph 1.2 of this Agreement;
- (ii) The 550 lot limitation set forth in Paragraph 2.2 of this Agreement;
- (iii) The preservation of greenspace within the Development as set forth in Paragraph 2.3 of this Agreement; and
- (iv) The prohibition on the sale or transfer of water rights outside of the Development set forth in Paragraph 3.4 of this Agreement;

The Parties acknowledge that these restrictions are being placed on the land within the Development for the benefit of SGVA, and for the benefit of the properties adjacent to the Development currently owned by Eddoran Partnership, Ltd and Gallagher Ranch Partners, Ltd.

4.2 **Implementation of Restrictive Covenants.** To implement Paragraph 4.1 hereof, the Restrictive Covenant Agreement attached to this Agreement as Exhibit "D" shall be executed by an authorized representative of BP 1766 San Antonio, Ltd. and filed in the official public records of Medina County, and also filed in the official public records of Bandera County.

5. **Improvement District**

5.1 **No Protest or Opposition.** Protestants agree not to protest or oppose any request or application by BP for the creation of a public district of any type that would allow BP the right to seek reimbursement through ad valorem taxes on future property owners in the Development for on-site and/or off-site improvements related to roads, drainage, septic systems, and/or water service (if the City/SAWS agrees to provide water service for the Development).
