Dear GEAA members and friends,

The 84th Legislature has reached the midway point and the deadline for filing bills has passed. As we have during every session for the past ten years, we have combed through hundreds of bills pertinent to our shared agenda. We are pleased to post <u>GEAA's Agenda for the 84th Legislature</u>. For easy reference, we also provide <u>a list of bills</u> that we support and oppose in numerical order.

Two of the really bad bills <u>HB 1865</u> and <u>HB 1794</u> have been approved in committee and are on their way to Calendars. You can see more information about these bills on <u>GEAA's Agenda</u>.

If you have relationships with any of the following members of the <u>House</u> <u>Calendars Committee</u>, we are requesting that you contact them and ask them to tag the <u>bad Contested Case Hearing bill</u>, HB 1865 and the bad Environmental Penalty Bill HB 1794.

The response to these Legislative Alerts to date has been amazing, and we are aware from visits with legislative staff that you are being heard. Thank you! Please pass this on to your friends. We really appreciate anything you can do to stop these bills from becoming law.

Stay tuned for more and have a great weekend!
