Dear GEAA members and friends,

Think the recent Texas Supreme Court decision on the Day McDaniels vs EAA case is clear as mud? *Texas Matters*, a Texas Public Radio Show, does a great job in presenting various perspectives on the Court's ruling. You can listen to it <u>here</u>.

And, the Texas Observer has a great write up on the Wimberley Valley Watershed Association's action before the Texas Water Development Board: <u>A Decision on Aquifer Mining in the Texas Hill</u> <u>Country Looms Today</u>.

For the latest on these and other water topics, check us out on Face Book.

Many thanks to all the thoughtful, generous folks who responded to last week's message by making an <u>on-line donation</u>! You are wonderful!

Have a great weekend!

Annalisa Peace Executive Director www.AquiferAlliance.org
