

Dear GEAA Members and Friends,

You folks certainly know how to get someone's attention! Last night over [200 citizens showed up](#) to give San Antonio's Mayor Castro and City Council an earful about why we oppose a high density development on the Edwards Aquifer Recharge Zone next door to the Bracken Bat Preserve. GEAA was joined by [Bat Conservation International](#), [Alamo Group of the Sierra Club](#), [Bexar Audubon Society](#), [Esperanza Peace and Justice Center](#), [Bexar Green Party](#), [Green Spaces Alliance](#), [Texas Audubon](#) and many, many concerned nature lovers and water wonks who presented very compelling arguments urging City Council to take action to protect our water and millions of Mexican Freetailed Bats.

We got great news coverage of the event. Check it out to see if you are on the news: [San Antonio Express News](#) , [San Antonio Current](#) , [Texas Public Radio](#) , [WOAI TV](#) , [KSAT TV](#) . Also check out a related [YNN News story](#) about aquifer recharge in Natural Bridge Caverns, right up the road from Bracken.

Since Mayor Castro and City Council did not commit to any action, we still need to keep up the pressure. You can contact the Mayor's office at 210-207-7060 / mayorjuliancastro@sanantonio.gov and City Council at 210-207-7040 to let them know that you oppose the Crescent Hills Development. For more information [click here](#).

Thank you to all who came down and to all of you who called. **We are not there yet but, we can make this happen!**

Annalisa Peace
Executive Director
www.AquiferAlliance.org

Commissioner? What's that? The fine citizens of San Antonio rallied at City Hall... and the Bat Cave is SAFE! I never doubted them for an instant!

You can always keep up with interesting water news on [GEAA's Face Book page](#)

and, you can mail contributions to support GEAA to PO Box 15618, San Antonio, Texas 78212
