

Dear GEAA members and friends,

Tomorrow is *Giving Tuesday* across the USA. If you are inclined to participate in this national day of giving please, [remember GEAA](#).

We are in great need of funding for GEAA's **Technical Assistance Program**, which provides our member groups, governmental agencies and policy makers, and the public at large with technical expertise and access to information that addresses issues of regional and local concern related to preserving the quality and quantity of the waters in the Edwards and Trinity aquifers and contributing watersheds. Citizens, news media, and increasingly, elected officials and public agencies rely on GEAA staff to provide or direct them to technical expertise regarding the management and protection of the Edwards and Trinity karst aquifer formations.

Many of you have expressed your gratitude for Carol's and my expertise when we have helped you in the past. Tomorrow you can share with others who are in need of our assistance.

Thank you,

Annalisa Peace
Executive Director
