Drag to Move

Dear friends of Land Conservation in Comal County,

As I write this on a cold and rainy day, I want to thank all of you who showed up on a cold and rainy night a few weeks ago to learn about [options for Land Conservation in Comal County](#).

As announced at that time, we hope to engage those of you who are passionate about this topic in creating a critical mass to move this forward. Towards this end, we have scheduled a follow up meeting on **Tuesday, December 12th from 2:30 to 4:00 p.m. at the McKenna Center**(801 West San Antonio Street, New Braunfels).

Agenda for meeting:

- Discuss individual visions and goals
- Come to agreement on how to organize to meet these goals
- Priorities and Strategies
- Future Actions

We invite all of you who wish to take an active role in organizing efforts to conserve open space in Comal County to attend.

We will continue to post news items and information about future events to the [Options for Land Conservation in Comal County](#) web page.

Let's keep some rain falling on open land in Comal. Our aquifers will be the better for it!
