

Dear GEAA Members and Friends,

We are pleased to announce The Reliant EcoShare<sup>SM</sup>, a new way that Texans can support GEAA and offset their ...own carbon production at the same time.

Through this program, Reliant Energy in partnership with EarthShare of Texas has launched a program that allows Reliant customers to help reduce their carbon footprints—while giving back to their favorite organizations—through the purchase of carbon offsets.

For each customer-purchased offset, Reliant will make a contribution to EarthShare of Texas and its participating organizations. As an EarthShare of Texas participating organization, GEAA will benefit from this program.

Here's how it works: The Reliant EcoShare<sup>SM</sup> program gives customers the option of two pricing levels:

For a flat monthly cost of \$3.95, a \$1 donation is made each month to EarthShare of Texas, and 500 pounds of carbon offsets are purchased. Or for a flat monthly cost of \$5.95, a \$2 donation is made each month to EarthShare of Texas, and 1,000 pounds of carbon offsets are purchased.

For more information, follow [this link](#) to the EarthShare of Texas website. Or you can go directly to [Reliant EcoShare](#).

Annalisa Peace

Executive Director
