

Thank you for making *Land Conservation Options for Comal County* a success!  
Dear friends of Comal County,

Thank you for coming out on a cold rainy night to participate in a discussion of [Land Conservation Options for Comal County](#). Judging from the feedback we got on your evaluation forms (and the great turnout!) we believe you all think that it was an evening well-spent. Read the report from the New Braunfels Herald Zeitung [here](#).

A big thank you also goes out to the wonderful [panelists](#) who so graciously shared their expertise and their presentations.

- Jensie Madden – [“Current Parks and Preserves in Comal County; Local Government Roles”](#)
- Tom Hornseth – [“Comal County Regional Habitat Conservation Plan”](#)
- Katherine Romans – [“Hill Country Growth Patterns”](#)

You can view and share all the presentations by clicking [here](#) and scrolling down to “Conference Presentations”.

[GEAA](#) and co-presenters, [League of Women Voters of the Comal Area](#) and the [Hill Country Alliance](#), are thrilled that there seems to be a desire to keep exploring – and acting on – options for preserving precious tracts of land in Comal County that contribute clean water to our springs and rivers and, that make Comal one of the most beautiful counties in Texas.

To facilitate further discussion, we have added a comment section on the [web page](#) where you can share your ideas, news, and suggestions with others who will visit the site. Since we didn't have enough evaluation forms for all of you, you can let us know what you thought in the comments section.

We have also provided the means for folks who were not in attendance to [sign up to participate](#). Just scroll down to "Stay Informed". Please feel free to forward an invitation to sign up to those who were not able to attend this first event so that they can contribute to the discussion and receive news and notices of future events.

We are eager to help in any capacity to move forward to preserve open space in Comal County. This includes scheduling future meetings, as suggested, to form an open space advocacy group in Comal County. Please do not hesitate to post suggestions or contact us to let us know how you think we can move these efforts forward.

Again, thank you for your attendance and your enthusiasm! We look forward to working with you on our mutual goal of preserving open spaces in Comal County.
