

The Greater Edwards Aquifer Alliance (GEAA) is looking for someone to help us engage a wider audience in support of our mission and campaigns through Social Media. This would be a contract position for 20-30 hours per week.

This person will:

- Assist with developing and implementing social media strategies to enhance GEAA's online presence.
- Assist with the management of GEAA's social media calendar to plan, organize, and track postings.
- Assist with creating engaging and informative content for various social media platforms.
- Assist with monitoring social media channels, responding to inquiries, engaging with the community, and expanding our reach to new audiences.

Compensation is commensurate with skills and experience.

Qualifications

The successful candidate must possess competency in all aspects of using social media, as well as organizational, and communication skills. Commitment to our mission is essential, along with the ability to work cooperatively and collaboratively with staff and volunteers.

Experience with social media platforms and content creation is required, and a background in successfully promoting campaigns is a plus.

Hours are flexible, usually from 10:00 am to 6:00 pm Monday through Friday. Work may be done remotely or at the office at 1809 Blanco Road in San Antonio, as preferred.

How to Apply

To apply send a cover letter, résumé, and writing / graphic / film or social media samples and expectations for compensation to:

Email: kellie@AquiferAlliance.org write Social Media Contract Position in the subject line.

GEAA is proud to be an Affirmative Action, Equal Opportunity Employer. Employment decisions are made without regard to race, color, religion, gender, national origin, age, disability, marital status, veteran or military status or any other legally protected status.

The Greater Edwards Aquifer Alliance unites Texans to promote effective, broad based advocacy for preservation of our water resources. We build support for conservation and sustainable management of the Edwards and Trinity aquifers, springs and contributing watersheds, flora and fauna, and the quality of life, history, and culture of the Texas Hill Country.
