MEMBER SPOTLIGHT

What a pleasure it is to feature this month's GEAA Member Group, The Conservation Society of San Antonio!

As a founding member linking arms with GEAA nearly 20 years ago, they have been one of our most long standing partners. They have been powerful advocates for historic preservation in San Antonio, and we are grateful that the Conservation Society of San Antonio considers preservation of our water resources in their mission. The work of their Historic Farm and Ranch Complexes committee and the assistance their organization provides to support easements for our historic farms and ranches is especially important to protecting our watersheds. Having this group of dedicated conservationists advocating on our side of the issues has been invaluable over the past 20 years.

Thank you to The Conservation Society of San Antonio for their unwavering commitment to our common goal of protecting and

preserving the history and cultural heritage of San Antonio and Texas for generations to come!

We welcome you to explore their resources and learn how to get involved in their good work [here](#).
