

Ana is a San Antonian with two decades of experience in environmental planning, public education and engagement, and environmental justice. Ana currently serves as Senior Director for Climate Justice and Energy Initiatives at the National Association for Latino Community Asset Builders (NALCAB).

As a former San Antonio City Councilwoman she led the adoption of the City's Climate Action Plan and the creation of the Resiliency, Energy Efficiency and Sustainability Fund. In the San Francisco Bay Area, Ana worked with environmental justice communities around issues of air pollution and created numerous partnerships for climate initiatives with area non-profits. Ana holds a BS in Chemical Engineering from MIT, MS in Environmental Engineering from Stanford University, and an MPH in Environmental Health from the Harvard Chan School of Public Health. Ana lives with her 2-year old daughter, Isadora, and next-door to her mother, Julia.
